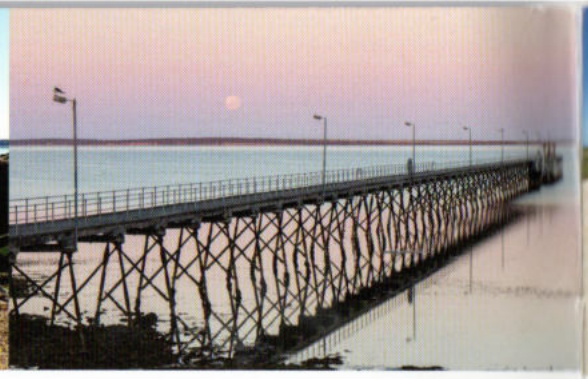
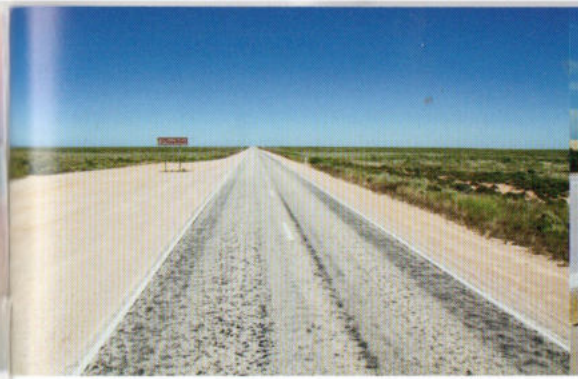
CEDUNA





WELCOME TO OUR PLACE ...

CEDUNA

· OYSTER CAPITAL OF AUSTRALIA

Far enough away from bustling city life to keep its unspoilt conditions and solitude, the Far West Coast offers spectacular beaches bordered by isolated bushland, giving an unspoilt, uncrowded and uniquely different place to live or holiday.

The country charm and community pride is as obvious as the desire to show that this region is an ideal holiday destination. The major towns of our region make an ideal base for exploring the pristine ocean and rugged coastline from Baird Bay to the Head of Bight. Whales are plentiful at the Head of Bight during the winter months, the surfing at Cactus Beach arguably the best in Australia, and the beautiful Gawler Rangers are a comfortable drive inland. The fishing is great all year round.

Smoky Bay and Denial Bay oysters are amongst the world's finest, grown and harvested in the region's pristine ocean watersandgentletides.

As the tide returned small rowboats, called lighters, from the sailing ships would gather the local produce and deposit passengers and incoming stores on the landing ready for pick up.

1.30PM – 3.30PM - EXPLORING DENIAL BAY

A little further west out of town, past the Quarantine Check Point, take the first left towards Denial Bay. On entering the township you'll see McKenzies Landing, a large wooden platform. Prior to the jetty, this landing was used to transfer goods from visiting ships; at low tide the landing could be reached by horse and cart, while at high tide small rowboats from the ships came to collect stores and deposit passengers and goods. The road into town leads to the beautiful jetty providing an excellent photo opportunity looking back towards Ceduna and Thevenard.

Driving back to the Denial Bay Road intersection, turn left and approximately 3 km further are McKenzie's Ruins. DISTRICT MAJOR TOWNS

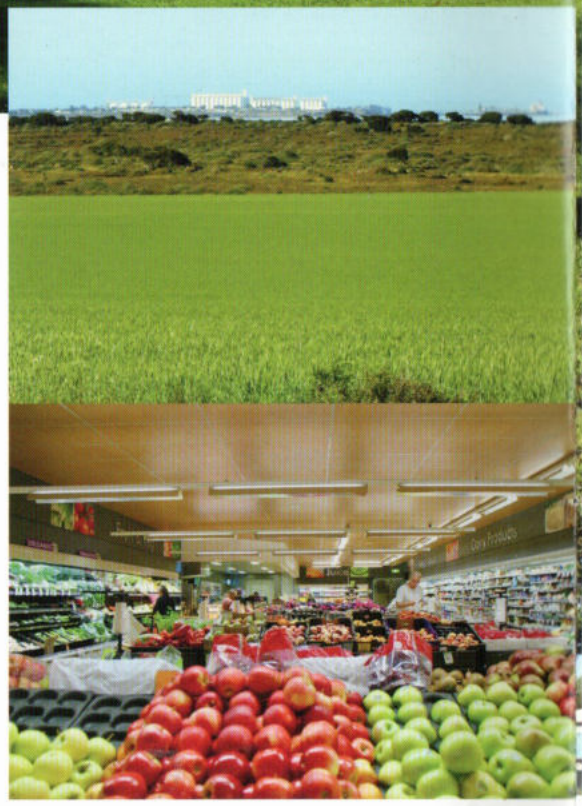
The town of Ceduna is the hub of the Far West Coast of South Australia, located on the beautiful shores of Murat Bay on the Great Australian Bight approximately 780 km from Adelaide and 1900 km from Perth. It is the last major town before crossing the Nullabor.

Ceduna township was originally called Murat Bay; however, when the railway came, the railway station was named Ceduna after the name of a well 23 km to the north-west of here.



Ceduna is at the core of a large and diverse business and industry sector on the Far West Coast of Eyre Peninsula providing a full range of shopping, banking and business services for the visitor. A vibrant, multicultural community of around 3,500 people, Ceduna was traditionally a service centre for the grain, fishing and mining industries however, now has a significant Aquaculture industry. COORABIE

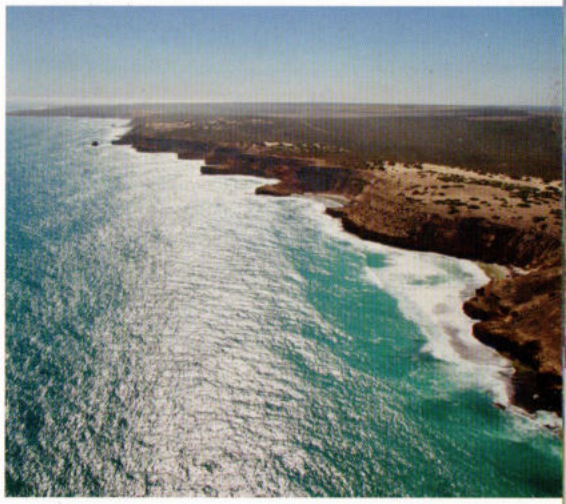
Located 84 km from Penong, Coorabie is a small regional town located 10 km south of the Eyre Highway managed by the Outback Communities Authority offering a central point for visiting Fowlers Bay, Scotts Bay, Mexican Hat, Cabot's Beach, Cheetima and Dog Fence Beaches. If you are looking for a Wombat, then Coorabie is the place to be with the Southern Hairy Nosed Wombat in abundance especially in Spring. There is also the iconic War Memorial built in 1950 sitting at the cross roads to Fowlers Bay and Nundroo that is worth a visit.



306 Km

MURRAWIJINIE CAVES

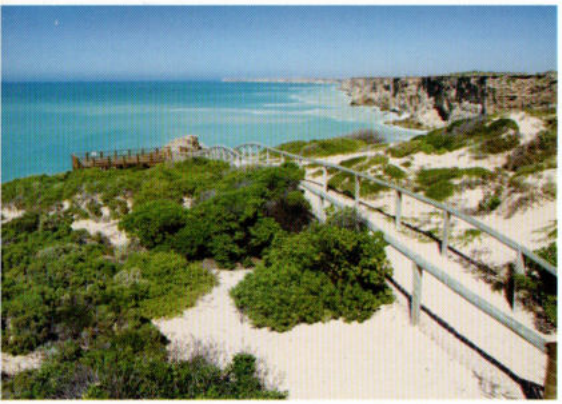
Hidden beneath the surface of the Nullabor Plain is a vast world of caves, caverns and underground lakes. The Murrawijinie Caves have been approved for public access and are located 11 km north of the Nullarbor Roadhouse. Most caves, however, can be entered only in the company of National Parks and Wildlife Officers, or with an accredited caving group. Strict regulations control the entry of all caves and permits can be obtained from DEWNR. Phone (08) 8625 3144.

290 Km

HEAD OF BIGHT

Located approximately 290 km west of Ceduna, the Head of Bight becomes the playground for migrating Southern Right Whales during the months of May to October. There are clear signs showing the way to the Interpretive Centre and viewing platforms (13 km off Eyre Highway).

The Interpretive Centre is open from 8am to 5pm on Monday to Sunday during whale season (1 June to 30 October) and 8.30am to 4pm on Monday to Sunday during the off season (1 November to 31 May) including public holidays (except Christmas Day and Proclamation Day). Fees are payable at the entrance to the interpretive centre.



Situated on the Yalata Aboriginal Lands, this is one of the best viewing areas in the world, with up to 100 whales, including calves, congregating in the seas adjacent to the Bunda Cliffs annually.

In 1996 the Great Australian Bight Marine Park was established, further recognising the importance of these whales. The facilities at Head of Bight include toilets, sheltered information gazebo, walkways and a large viewing platform. While binoculars are not required, some visitors enjoy being able to get a close-up view. Currently, there are no dining facilities at Head of Bight, however, you may bring a picnic with you. Seating and shaded areas are located within the information gazebo.

We recommend that you bring with you a hat, sunscreen, drinking water and a jacket. Throughout the whale-watch season, extremes of climate are often experienced and being prepared will ensure a more pleasant experience.

Accommodation is available at Nullarbor, Nundroo, Coorabie or Fowlers Bay.

297 Km

NULLARBOR ROADHOUSE

Is 297 km west of Ceduna and offers a service point for the traveller, consisting of a roadhouse, motel, restaurant and caravan park, open 7.00am to 11.00pm. It was originally Nullarbor Sheep Station.

Viewing areas provide spectacular vistas along this majestic coastline where whales, Australian sea lions, dolphins and great white sharks can often be seen.

Chinta Air Tours are available for joy flights over the area during the whale season from the Nullarbor Roadhouse.
